RESPONSE TO FEEDBACK ON COURSE CLOSURE

Firstly, thank you to all the Members that took the time to provide their feedback, whether they supported the Board's decision or not and, as always, I commit to responding to every one over the coming days.

The reality was that we knew that whatever decision we arrived at was going to be polarising. There was therefore no 'right' or 'wrong' answer so all we could do was make that decision with what we believed were the best interests of all of our Members at heart. I'm all for transparency so I will reveal that, just like the overall Membership, there were differences of opinion between Board Members - and that is healthy - as we weighed through the pros and cons of each outcome.

However, at the end of the discussion, we had a decision that collectively, we believe best reflects the wishes of our overall Membership and if the feedback received today is indicative, whilst some believe we have got it wrong, the majority of respondents were supportive of the Board's stance.

Regards,
Doug
